Dr. Jonathan Bayuk, a doctor of osteopathic medicine and the president of Allergy & Immunology Associates of New England, LLC, knows what it takes to take a shot at success. Back in 2013, Dr. Bayuk and three colleagues wanted to take their expertise to the next level with their own focused practice. With the help of Florence Bank, they were able to turn their business into a thriving allergy and immunology practice in three counties of the Pioneer Valley.

Florence helped decipher what they'd need for capital and extended that capital and a line of credit that allowed them to get started. "The bank did its due diligence, but it was a kind and gentle process," says Dr. Bayuk. "The employees live here. They know the people. That's a huge benefit to small businesses in Western Massachusetts. I've always felt if I needed something from the bank, if I made a phone call, they would be there for us," says Dr. Bayuk. A bank that's always there for its customers, small businesses and the community. That's Florence Bank.

DR. JONATHAN BAYUK
